

Warm Greeting Dear Members

Right now we are in the middle of Pandemic and whole nation is reeling under its blow. It has affected people of all walks of life immensely. Probably it has affected Medical fraternity more than anybody else because we are directly involved in patient care. We are in the fore front of this battle. It has affected us both professionally and personally.

When we started the year 2020, we did not have a slightest clue about the magnitude of this pandemic. So we are forced to conduct our professional meetings in a Virtual way this year. Already we have experienced a tsunami of Webinars on wide range of topics. So this way we have kept our self busy and engaged at the same time educated.

This year we have planned to hold Dr. T.S.Jairam workshop on **“Complications of Urological Surgery “**. Already the preparations are underway. We sincerely hope our members will enjoy this Video-Virtual Workshop.

Finally I would like to end with 2 Sanskrit quotes: One of them says **“ Jeevan Bhadrani Pashyati “** means **“ If alive one can see better things in life “** other one says **“ Shareera Madhyam Khalu Dharma Sadhanam “** meanings **“Body is the instrument for the righteous action”** so it is important to safeguard our life at all costs.

Stay Safe and Healthy

Best Wishes

Dr. Nagaraj Rao
Hon. President

Dr. Manohar.C.S
Hon. Secretary
